PROJECTS

Degree Ledger, Berkeley Requirement Tracker

Independent Project

JavaScript, HTML/CSS, GitHub Pages

2026

- Built a browser-based degree tracker covering every L&S major and CDSS minor at Berkeley, showing what actually remains between a student's completed coursework and graduation
- Encoded IGETC and Cal-GETC certification, transfer and first-year pathways, unit ceilings, and the course overlap rules that most often cause students to miscount progress
- Runs entirely client-side with no server or data collection, deployed at paytonnguyen-creator.github.io/degree-ledger

Public Court Demand Simulation

Independent Project

Discrete-Event Simulation, Python

2026

- Simulated open-play queueing across five public park facilities, incorporating NOAA weather data to model demand variability and wait times
- Quantified how court allocation and session length affect wait time, translating results into scheduling recommendations

PROFESSIONAL EXPERIENCE

DirectPath Financial

Costa Mesa, CA

Business Operations Intern

May 2026 - Aug 2026

- Traced account opening and documentation pipelines end to end to locate where status visibility broke down between advisors and the back office, then closed those gaps
- Diagnosed recurring documentation exceptions through structured log review, addressing root causes to reduce rework and prevent downstream compliance findings
- Audited and reconciled correspondence, check, and gift logs in Docupace, validating record accuracy against SEC retention standards
- Administered daily operations across AdviceWorks, NetX360, Docupace, and Pinpoint Compliance at a FINRA/SEC regulated broker-dealer

Great Park Tennis Academy

Irvine, CA

Tennis Instructor

Jun 2023 - Present

- Lead group instruction for junior players across skill levels, planning lesson progressions and adjusting drill sequencing to measured development
- Track player performance across sessions to identify where athletes plateau, then rebuild practice blocks around those gaps
- Coordinate court allocation and class scheduling with academy staff through peak summer and weekend demand
