

Payton Nguyen

Irvine, CA | paytonnguyen@berkeley.edu | 949-877-4622 | paytonnguyen-creator.github.io

EDUCATION

University of California, Berkeley

Berkeley, CA

Bachelor of Arts in Data Science & Cognitive Science | Domain Emphasis: Business and Industrial Analytics

August 2026 - May 2028

Relevant Coursework: Introduction to Cognitive Science, Foundations of Data Science, Programming in MATLAB, Statistics, Calculus I-II, Microeconomics, Macroeconomics, Financial Accounting, Computational Models of Cognition, and Linear Algebra

Occidental College

Los Angeles, CA

Undeclared; NCAA Division III Men's Tennis Student-Athlete

August 2025 - December 2025

GPA: 4.00/4.00

Irvine Valley College

Irvine, CA

Primary Transfer Institution

June 2025 - May 2026

GPA: 3.89/4.00

PROJECTS

AI Support Automation: Deployable Coverage vs. Vendor Accuracy

July 2026

Independent Project | Python, pandas, scikit-learn

- Selected a 23,700-request benchmark containing 1,200 out-of-scope queries and withheld them entirely from training to reproduce live deployment conditions, showing in-scope accuracy of 92.4% fell to 75.6% on realistic queue composition
- Modeled abstention-and-handoff routing against classifier improvement, finding the routing rule worth roughly 4x more per 100,000 contacts than a hypothetical perfect classifier, and recommended sequencing spend accordingly
- Identified that the intuitive quality metric improves as queue health degrades, then specified corrected monitoring criteria and a deployment risk register

E-Commerce User Retention Analytics & Product Strategy

July 2026

Independent Project | Python, pandas, scikit-learn

- Analyzed e-commerce transaction data in Python, segmented one-time and repeat buyers, and engineered customer-level behavioral features to diagnose key drivers of customer retention and churn
- Built and validated a logistic-regression model to identify the behaviors most predictive of repeat purchase, then sized the opportunity within each customer segment
- Translated analytical findings into a two-page product requirements document and five-slide executive presentation, prioritizing retention initiatives by expected impact, implementation cost, and measurable success criteria

LEADERSHIP & INVOLVEMENT

NCAA Division III Men's Tennis

Occidental College

Student-Athlete

August 2025 - December 2025

- Balanced approximately 15 hours per week of NCAA Division III practice, conditioning, and competition with a full course load while earning a 4.00 GPA
- Collaborated with 10+ teammates and coaching staff, applying performance feedback to match preparation and execution

Occidental Finance Club

Occidental College

Associate

September 2025 - December 2025

- Analyzed public companies across multiple industries during a 1-semester associate role using financial statements, market research, and competitive analysis
- Presented concise investment recommendations and defended key assumptions in peer discussion

WORK EXPERIENCE

Great Park Tennis Academy

Irvine, CA

Tennis Instructor

June 2023 - Present

- Lead group instruction for up to eight athletes per session, assess performance gaps, and adapt drills across ages and ability levels
- Track player development and communicate progress, recommendations, and training goals to parents and athletes

ACEing Autism

Mission Viejo, CA

Volunteer Tennis Coach

September 2022 - August 2025

- Provided 75+ hours of free, individualized tennis instruction to 25+ children across approximately 50 sessions, adapting drills and communication to each participant's coordination, learning, and sensory needs

M.E.M.O. (Medical, Educational Missions & Outreach)

Vietnam & California

Medical Outreach Volunteer

July 2023 - July 2026

- Supported 3 annual medical missions in Vietnam and 1 community clinic in Little Saigon through intake, Vietnamese-English translation, clinic flow, and supply distribution, working approximately 8 hours per day alongside medical staff

SKILLS & INTERESTS

Skills: Python (pandas, scikit-learn), R, SQL, MATLAB, Excel, PowerPoint, and Google Colab

Languages: Vietnamese (fluent); Spanish (intermediate)

Interests: Tennis, pickleball, basketball, fitness, and travel
